

## Clip system:

Two which belong together like hammer and chisel: the collated FOS storm clips and the installation accelerator FOS ClipHOLSTER®.

### Your benefits:

Easy removal from the packaging.

Easy removal from the strip.

Clips in easy reach.

Reduction of the installation time.

Protection from injuries.

## Mechanical fixings and storm safety of covering materials for roofs and facades

We offer you the most versatile clip range for fixation and professional wind uplift safety of small-format covering materials for roofs and facades in Europe. All FOS products are delivered by dealers and industry partners.

Our mobile roofing tools on [www.fos.de](http://www.fos.de) assist you to work fast and easy on the topic of storm safety:

### FOS ClipCHECK

The reverse search enables you to determine allocation of covering materials for usage with clips available in-stock.

### FOS CombiCHECK

The reverse search enables you to determine allocation of covering materials for usage with clips available in-stock.
