

Clip system:

Two which belong together like hammer and chisel: the collated FOS storm clips and the installation accelerator FOS ClipHOLSTER®.

Your benefits:

Easy removal from the packaging.

Easy removal from the strip.

Clips in easy reach.

Reduction of the installation time.

Protection from injuries.

Mechanical fixings and storm safety of covering materials for roofs and facades

We offer you the most versatile clip range for fixation and professional wind uplift safety of small-format covering materials for roofs and facades in Europe. All FOS® products are delivered by dealers and industry partners.

Our mobile roofing tools on www.fos.de assist you to work fast and easy on the topic of storm safety:

FOS ClipCHECK®

The product finder determines the suitable clips for each object.

FOS CombiCHECK®

The reverse search enables you to determine allocation of covering materials for usage with clips available in-stock.
