Head clip

455 for Roman tiles

Retailer stamp

Roman tiles

Mediterranean, antique look on the roof.

The monk and nuns tiles with the high conical shape is characteristic for roman tiles. The shape is used in warmer climates for keeping the top of the roof space cooler. Due to its all-round interlocking ring, it is suitable for more flat pitched roofs than the classic monk and nuns tiles. The curved shape is a reminder of ancient architecture ...

Enquiries:

For which roof tiles are the 455 clips available?

The 455 is available in different designs for various southern Roman tiles. The suitable clips can be quickly ascertained with the FOS ClipCHECK on www.fos.de by giving the field of application, the type of mounting, the roof tile and the battens.

For which Roman tiles can I use the head clip 455?

Head clip 455 can be used for left and right-hand roof tiles where the head covers the side fold.

Conclusion:

The benefits of the head clip 455 are:

- ✓ Compliance with professional standards for fixing Roman tiles on roof
- ✓ High uplift resistance
- ✓ Various types, suitable for all kinds of timber battens
- ✓ Jagged drive-in tip
- ✓ Reinforced beads provide better hold
- ✓ Simple installation by hammering in
- ✓ Small packaging quantities

Head clip 455

Application

Head clips 455 guarantee a high resistance against wind uplift loads when fixing southern Roman tiles on the roof.

Clip shape and installation

The jagged drive-in tip makes it easier to drive into the batten. The beading optimisation provides a strong hold. The 455 will fix three tiles in the four-tile corner and is placed at the highest point of the tile.

Established FOS quality

Stainless steel BS 304 S 15 or ZIAL® (zinc aluminium) coated surfaces guarantee long durability of the clip. The 455 is patented internationally.

Packaging quantity

The small packaging sizes are very handy for repair work, for example.
